# JOSEPH BISCARDI

IT Systems & Security Analyst | Identity · Endpoint · OT

Greenville, NC · joe@josephbiscardi.com · josephbiscardi.com

## SUMMARY

Systems and security analyst with 7+ years securing identity, endpoints, networks, and operational technology in a manufacturing environment. Protecting 130 users with Entra ID, Cisco Duo MFA, Intune/Mosyle, SentinelOne EDR, SonicWall firewalls, Tailscale remote access, and Datto backups. Experience with corporate IT and plant-floor Ignition systems, and hands-on monitoring.

## TECHNICAL SKILLS

**Identity & Access:** Microsoft Entra ID, Cisco Duo MFA, Tailscale, least-privilege access administration

**Endpoint Security:** SentinelOne EDR/XDR, Intune, Mosyle MDM, Action1 patch management, Windows / macOS / iPadOS

**Network & Monitoring:** UniFi networking, SonicWall firewalls, UniFi Protect, PRTG, Site24x7, remote access controls

**Resilience & OT:** Datto backup and restore testing, Windows Server, Linux, Ignition SCADA administration

**Operations:** SOP development, disaster-recovery checks, on-site and remote support for users

## EXPERIENCE

### IT Systems Specialist
April 2021 – Present

*Metallix Refining* | Greenville, NC

- Own identity and access for 130 users with Microsoft Entra ID and Cisco Duo MFA; control remote access to internal resources with Tailscale.
- Deploy and maintain SentinelOne EDR/XDR across the endpoint fleet; use Intune, Mosyle, and Action1 to keep Windows, macOS, and iPad devices patched and compliant.
- Administer UniFi network infrastructure, SonicWall firewalls, and UniFi Protect; monitor availability and faults with PRTG and Site24x7.
- Protect recovery capability with Datto backups and periodic restore testing for servers and critical systems.
- Administer Ignition on operational technology networks; coordinate access between plant-floor systems and corporate IT so OT stays available and segmented.
- Write security- and operations-related SOPs and support users on-site and remotely across cloud, server, backup, and network systems.

### System Administrator
May 2019 – April 2021

*LS Tractor USA* | Battleboro, NC

- Implemented and maintained access controls, backups, and firewall protections for manufacturing systems and office users.
- Installed and hardened servers and workstations; monitored performance and resolved incidents that affected production support.
- Supported user access lifecycle, including account setup, permissions, and day-to-day security hygiene.

### Student Lab Technician
January 2018 – May 2019

East Carolina University | Greenville, NC

- • Supported computer labs across campus, handling hardware, software, and account issues for students and faculty.
- • Imaged, patched, and maintained lab machines and peripherals to keep classrooms operational.
- • Escalated complex problems and documented recurring issues for permanent IT staff.

## EDUCATION & CERTIFICATIONS

**B.S. Information and Computer Technology, Security Concentration**
East Carolina University, Greenville, NC
May 2019

**Accredited Configuration Engineer (ACE)**
December 2018
